Expedited Joint Reviews for the Boiler and Pressure Vessel Certification Program for Reviews Conducted by ASME Only

To be eligible for the ASME Expedited Review Process, an applicant must meet one of the two following requirements:

1. New Applicant that does not currently possess an ASME Certificate.
2. Certificate Holders may request an Expedited Review earlier than the typical review which is normally scheduled ten weeks prior to expiration date. All required application forms and applicable fees must be submitted six months prior to the expiration date of their certificate(s).

Companies requesting an Expedited Review must submit all applicable forms and fees at least two months prior to the requested dates.

A **completed** application for an expedited joint review includes:

- All applicable application forms submitted via CA Connect;
- Signed Accreditation/Certification Agreement form;
- For deposit, [certificate/stamp](#) fee and [expedited service fee](#); refer to [Price Guide](#);
- Verification of the inspection agreement from the Authorized Inspection Agency (if applicable). It is the applicant's responsibility to ensure that their AI/AIS will be available for the expedited review dates, if applicable.

Please note that cancellation of the accepted Expedited Review dates will result in a [cancellation fee](#) (see [Price Guide](#)). A new review will not be scheduled until the cancellation fee has been remitted. The initial [Expedited Joint Review](#) fee will also not be refunded. However, if the applicant does not accept the proposed expedited review dates and requests later review dates, the expedited service fee will be applied to the cost of the review.

For more information, please contact the ASME Conformity Assessment Department via email ca@asme.org.
