

Group Membership for Professionals Participation Request Form

THE AMERICAN SOCIETY OF MECHANICAL ENGINEERS (ASME)

Thank you for your interest in ASME Group Membership! It's easy to get started...

1. Choose your primary contact. The first step for a company or academic institution wishing to participate in the ASME Group Membership Program for Professionals is to select an authorized individual at the organization to be the primary contact with ASME regarding all matters having to do with this program.

2. Complete, save and return this writable PDF form to ASME by email to CSG@asme.org. If you prefer to fax or return the form by postal mail, please use the information at the bottom of this form.

3. An ASME representative will contact you via email or phone to verify the request and review any questions either side may have. Once approved by ASME to participate in the program, the primary contact will be able to proceed with the process of enrolling employees as members using one of two options ASME will provide – a spreadsheet to complete for the entire group or an individual membership form you can distribute and collect.

The ASME Group Membership program is available to new and renewing members. Your ASME representative will provide information on our **Special Group Membership Discounted Pricing** and available payment methods.*

To learn more about ASME Membership benefits visit www.asme.org/membership

* Group Membership rates are based on the current professional member dues – with these special Group discounts: 25% off for new members and 10% off for renewing members. (Example: \$158 US current professional dues x 10 joiners = \$1,580 less 25% for first year new members – a savings of \$395!)

Participating in the ASME Group Membership Program will provide all your engineering and technology related employees with the following valuable benefits:

- Monthly subscription to *Mechanical Engineering* magazine
- *ASME SmartBrief* daily summaries of essential engineering news
- ASME Job Board + Career Center exclusively for engineers
- AccessEngineering online reference tool with 750+ volumes on all engineering disciplines
- Access to the latest developments with ASME's Technical Divisions
- Discounts on ASME conferences, courses, and publications, plus insurance, merchandise and more
- ASME Mentoring Program
- Local Section events and activities
- Networking opportunities in person and online
- ASME Salary Services – annual survey and salary calculator
